Progression of exercises

Squats

Level 1 – Squats	Stand tall with your feet shoulder width apart and toes pointing forward. Inhale as you bend at the knees, lowering from the buttocks as if you are sitting in a chair. Your thighs should be parallel to the ground at the bottom of the movement. Exhale as you straighten your legs back up to starting position.
Level 2 – Jump squats	Stand tall with your feet shoulder width apart and toes pointing forward. Inhale as you bend at the knees, lowering from the buttocks as if you are sitting in a chair. Exhale as you jump up, keeping hips and shoulders facing forward. Land softly, bending at the ankles, knees and hips bringing the body back to the half squat position.

Push ups

Level 1 - Push up on knees	On all fours (hands and knees), pull your core to your spine, bend your elbows to more than 90 degrees, lower your chest towards the floor and then push up extending the arms to the starting position.
Level 2 - Push up on toes	In a plank position, pull your core to your spine and bend your elbows to more than 90 degrees bringing your chest towards the floor, push up extending the arms to the starting position.

Bridges

Level 1	Lying on the ground with knees bent, toes pointing forward and arms by your side. Squeeze your core towards the floor and lift your hips off the ground so that they are aligned to your knees while squeezing your buttocks. Hold for 1 second at the top then drop your hips towards the floor slowly.
Level 2 - Bridge with leg lift	Lying on the ground with knees bent, toes pointing forward and arms by your side. Lift one leg and hold it up there throughout the whole movement. Squeeze your core towards the floor and lift your hips off the ground so that they are aligned to your knees while squeezing your buttocks. Hold for 1 second at the top then drop your hips towards the floor slowly.

Burpees

Level 1	With your feet hip-width apart, bend your knees and bring hands to the floor in front. Jump your feet back into a plank position, collapse your chest towards the floor, push up from the arms as if doing a push up and jump your feet back to your hands and stand up.
Level 2	With your feet hip-width apart, bend your knees and bring hands to the floor in front. Jump your feet back into a plank position, do one push-up then jump your feet back to your hands and jump up landing softly with slight bend at your knees, hips and ankles.

Lunges	
Front lunges	Standing tall with your feet shoulder-width apart. Step forward with one foot keeping your torso as tall as possible. As you bend both legs to sink into a lunge position, keep your weight in the ball of your front foot and explode back up to the starting position.
Lateral lunges	Standing tall with your feet shoulder-width apart. Step out to one side with one foot keeping your torso as tall as possible. As you bend one legs to sink into a side lunge position, keep your weight in the ball of your foot that is extended to the side and explode back up to the starting position.
Planks	
Planks	Place your forearms on the floor and extend your legs out behind you. Your elbows should be directly beneath your shoulders and your body should form a straight line from head to heels.
Side plank left and right	Lie on your side with your legs straight and your forearm on the floor. Rest the other arm on your hip. Lift at the hips to form a straight line from head to heels, hold position and lower back down.
Mountain climbers	Starting in a push up position (see push up). Bend one knee bringing it towards your wrist on the same side under your body, then straighten your leg back to the starting push up position. Repeat on the other leg.
Other exercises	
Triceps dips	Sit with your feet flat on the floor in front of you and with knees bent. Placing hands on the floor behind your hips with fingers pointing towards your toes. Lift your hips off the floor and bend your elbows while lowering your hips towards the floor, then bring your hips back up to the starting position.
T-stand	Stand with feet together and arms at your side. Inhale and slowly bend from the hips, lowering the torso towards the floor and extending the arms forward out in front. As you fold forward, lift one leg off the floor until your torso, arms and legs are parallel to the floor. Exhale as you lift the torso and lower the leg down back to the starting position. Repeat with the other leg.
